John Croasdale

Relevant Experience

Dancing House Consulting
Oct 08 - Present

Providing freelance consultancy and development services to a range of clients across the UK. Specialising in the latest Microsoft web technologies.

QResearch/EMIS

QResearch is a large consolidated database derived from the anonymised health records of over 9 million patients. EMIS develops the clinical systems used in 60% of the UK's surgeries.

Lead Web Developer/Architect
Oct 06 to Oct 08

Role & Achievements

- Designed, developed and delivered several web applications based around reporting large amounts of health data.
- Developed winforms modules in the EMIS clinical healthcare application used by over 3000 UK surgeries.

Fern Training & Development

Fern provide training and personal development courses. They are the biggest private sector provider of the Government's New Deal training programme in the country.

Information Systems Architect
June 04 to July 06

Role & Achievements

- Responsible for designing & developing online MI (Management Information) systems.
- Developed and deployed several other Line of Business applications to support the MI system.

Ramesys, Notts. Senior Web Developer
Aug 02 to June 04

- Designed and developed modules and core functionality for the company's web based content management software. We used classic ASP and SQL server, and migrated the product to C# .NET in 2003.

VeriSign UK Lead Developer /Project Manager
Nov 99 to June 02

- Developed resilient, high traffic 3-tier web applications (1.5 million unique visitors to all storefronts per month average)
- Designed and implemented high security login areas that allowed customers to directly configure their products.

Nottinghamshire Rural Community Council
Web Developer 96 to 99

- Developed bespoke ASP/Access applications.
